

Hello All,

It was great seeing everyone this past weekend at MIT. I was so grateful for the participation of all of you. I enjoyed hearing feedback on the questions; I even learned a few things. Moving forward I would love to see what kind of game ideas you all come up with.

At the end of this month, we have Star Family Day. Is your Auxiliary holding an event to honor those who have lost loved ones? Make sure you are using your hashtags and posting your events and happenings. #AZ2526Americanism

For those of you who attended the MIT- Click on the link to the Americanism Programs Page on the Department of Arizona website to learn more fun facts to add to your game whether it be like jeopardy or like what I did with the wheel.

I leave you with another fun fact....

Where is the largest Free Flying Flag located? How big is it?

Answer: The flag is in Gastonia, North Carolina, and is 65ft by 114ft.
