

Overview for Auxiliary Community Outreach

Volunteering is what we do. Throughout the history of the VFW Auxiliary, it has been done under many different titles. Known now as Auxiliary Community Outreach, we are able to recognize as a whole organization our goals. To get out into our communities to help wherever and whenever we can. Letting the community that we live in know that they can depend on us when they need us to be there. This is a great way to network and get out into the public eye more. It is also a great way to gain new members and have more opportunities to be involved.
